

WHAT CAN I DO AS AN RSA FELLOW?

We believe ideas are powerful, and that the RSA is the best place to have them.

Many of our Fellows are working together to turn these ideas into positive action.

Here are four ways to get involved

1

Meet other Fellows

Join with others to discuss a challenge facing your community, or a social issue that you care about

Connect online

Share an idea with others online, and get them to help you develop and improve it

2

3

Share your skills

Give your time to a project, and offer your expertise to help it succeed

Grow your idea

Design a solution to a social challenge, and apply for funding and support so that you can prove it works

4
